

RESOLUTION 2026-###

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SAN PABLO APPROPRIATING \$14,500 FROM THE SUPPLEMENTAL LAW ENFORCEMENT SERVICES GRANT FUND 210 (SLESF) FOR THE PURCHASE AND PROCUREMENT OF A LAW ENFORCEMENT GEOSPATIAL AI TRAFFIC DATA PLATFORM FROM URBAN SDK

WHEREAS, *Community Policing and Strengthen Technological Infrastructure to Enhance Law Enforcement* under the Public Safety Policy Area are adopted policy items under the FY 2023-25 City of San Pablo Council Priority Workplan, effective April 7, 2025;

WHEREAS, the Supplemental Law Enforcement Services Grant Fund 210 is a mandated grant as defined by Government Code Section 30061(b)(3)(i) wherein the County is required to remit a minimum of \$100,000 annually to the City to be spent on frontline law enforcement;

WHEREAS, following appropriation of funds by the City Council for eligible frontline law enforcement purposes, any expenditures must comply with the City's purchasing policy;

WHEREAS, Urban SDK is a provider of geospatial AI solutions, equipping public safety with actionable insights and automation for mission critical decisions. Established in 2018 and headquartered in Florida, Urban SDK is the only platform on the market that provides a comprehensive geospatial AI platform that provides traffic data, safety analytics and visualization tools;

WHEREAS, with Urban SDK, the Police Department can effectively and efficiently use resources to identify and mitigate high risk traffic corridors, plan traffic enforcement operations, and continually monitor vehicle/traffic speeds throughout the City;

WHEREAS, staff recommends exempting these procurements from the City's competitive bidding requirements under San Pablo Municipal Code Sections 3.16.110(B) and 3.16.110(C). These sections allow exemptions when specialized services are integrated with proprietary equipment requiring expert installation, configuration, and maintenance, and when the software or system components are uniquely available from a sole source vendor;

WHEREAS, Urban SDK provides proprietary technology and specialized integration services that are essential for "real-life" law enforcement training scenarios within a safe environment. Based on the factors listed above, staff concludes that competitive bidding would not serve the public interest or yield a meaningful advantage;

WHEREAS, staff recommends that the City Council approve the sole-source procurement from Urban SDK to ensure the Police Department appropriately utilizes internal resources to address traffic safety concerns;

WHEREAS, on May 5, 2026, staff presented the Urban SDK purchase to the Public Safety Standing Committee (Mayor Pabon-Alvarado & Vice-Mayor Xavier). The funding source for this procurement was identified from the Supplemental Law Enforcement Services Grant Fund 210 (SLESF). The committee recommended this procurement request be forwarded to the City Council for formal approval,

WHEREAS, Supplemental Law Enforcement Services Grant Fund 210 (SLESF) has a fund balance of \$426,861 available for appropriation; and

WHEREAS, staff requests an appropriation of \$14,500 from SLESF Fund 210, for the purchase and procurement of a geospatial AI platform from Urban SDK.

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of San Pablo hereby appropriates \$14,500 from the Supplemental Law Enforcement Services Grant Fund 210 (SLESF) for the purchase and procurement of a law enforcement geospatial AI traffic data platform from Urban SDK; and

BE IT FURTHER RESOLVED that the foregoing recitations are true and correct and are included herein by reference as findings:
