CONTRA COSTA  
**MOSQUITO  
& VECTOR  
CONTROL**  
DISTRICT

# The District

protecting public health since 1927

The Contra Costa Mosquito & Vector Control District is a public health agency dedicated to protecting the community from mosquitoes and other vectors of disease.

County citizens voted to create District in 1926 and we opened our doors in 1927.

# The District

protecting public health since 1927

In 1993, Contra Costa County transferred its rat and rabies risk reduction programs to us, and that's when we changed our name to Contra Costa Mosquito and Vector Control District (District).
