**Support for...**

## **$\frac{1}{2}\%$ Increase in City's Sales Tax**

**Question 13.3b** Since you're not willing to support a  $\frac{3}{4}\%$  increase in the City's sales tax to address the fiscal challenges facing the City of San Pablo...would you support increasing the local sales tax by  $\frac{1}{2}\%$  (which is a half-penny) to help address this critical matter? (Added support from 13.3a with 13.3b)
