California Voting Rights Act

- California Voting Rights Act of 2001, expands on federal Voting Rights Act of 1965.
- A violation of the CVRA is established if it is shown that racially polarized voting occurs in elections for members of the governing body.
- Proof of intent on the part of the voters or elected officials to discriminate against a protected class is not required.

At-large vs. Trustee-Area Elections

- At-large elections: Each trustee is elected by all voters within the District.
- Trustee-area elections: Each trustee must reside within the designated trustee area boundary, and is elected only by the voters in that trustee area. Also known as "district-based" elections.

Background

- Established in 1965 (four elementary school districts and one high school district)
- Serves 29,000 students in five cities
- Governed by five-member Board of Education

I. Trustee areas must be at least as nearly equal in population (as required by law).

2. The boundaries of the trustee areas shall not be gerrymandered primarily on the basis of race (again as required by law).

3. The boundaries of the trustee areas shall be established so that the trustee areas do not result in a denial or abridgement of the right of any citizen to vote on account of race or color as required by federal law.

4. If possible, the boundaries of the trustee areas shall be compact, meaning that to the extent practicable, minority communities are concentrated in geographical areas in a way that increases their ability to elect candidates of their choice.

5. If possible, the boundaries of the various trustee areas shall contain contiguous territory, with no trustee area having disconnected parts.

6. The boundaries of the trustee areas will observe communities of interest, such as the District's elementary and high school attendance areas, rural or urban populations, municipalities, social interests, agricultural, industrial or service industry interests, and the like, insofar as practicable.

7. The boundaries of the trustee areas will specifically take into consideration (though not necessarily be bound by) city boundaries and school attendance areas.

8. The location of the residences of the existing Board members generally would not be taken into consideration when creating maps.

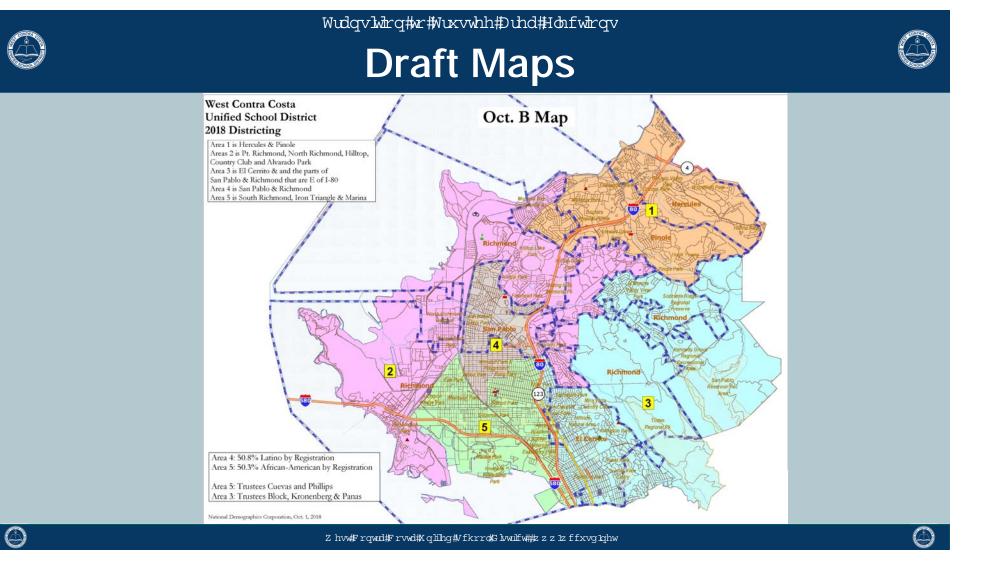

9. The maps will have the goal of creating one trustee area with 50% Latino voters, as measured by voter registration, and one trustee area as close to 50% African-American voters as possible, as measured by voter registration.

*Each of the foregoing items, except where noted as a legal requirements, represents goals, rather than absolute requirements.
