

Impossible Aerospace Corporation
2222 Ronald St
Santa Clara, CA 95050

April 29, 2019

To Whom it May Concern:

This letter is in response to your request for a Sole Source letter from our company.

Impossible Aerospace designs, manufactures, and services the US-1, a high endurance unmanned aircraft with thermal and optical imaging capabilities. It also designs, manufactures, and sells accessories for the US-1 including radios, handsets, multicast screens, and hard cases.

Impossible Aerospace is the sole and only provider of the US-1 and its related accessories. We do not resell our products through distributors or dealers.

The superior flight time of the US-1 is enabled by several patent-pending battery technologies unique to Impossible Aerospace.

Please feel free to contact us with any questions.

Sincerely,

A. Spencer Gore
CEO, Impossible Aerospace
