#### **HOW TO USE RETENTION SCHEDULES**

©1995-2019 Gladwell Governmental Services, Inc. (909) 337-3516 - all rights reserved Do not duplicate or distribute without prior written permission

A legend explaining the information presented in the retention schedule has been printed on the back of each page for your easy reference; an index to locate records is also provided.

The specified retention period applies regardless of the media of the record: If a record is stored on paper and a computer file on a hard drive, both records should be destroyed (or erased) after the specified period of time has elapsed.

Copies or duplicates of records should never be retained longer than the prescribed period for the original record.

#### STRUCTURE: CITYWIDE. DEPARTMENTS & DIVISIONS

The City-wide retention schedule includes those records all departments have in common (letters, memorandums, purchase orders, etc.). These records are NOT repeated in the Department retention schedule, unless that department is the Office of Record, and therefore responsible for maintaining the original record for the prescribed length of time.

Each department has a separate retention schedule that describes the records that are unique to their department, or for which they are the Office of Record. Where appropriate, the department retention schedules are organized by Division within that Department. If a record is not listed in your department retention schedule, refer to the City-wide retention schedule. An index will be provided for your reference.

#### **BENEFITS**

This retention schedule has been developed by Diane R. Gladwell, MMC, an expert in Municipal Government records, and will provide the City with the following benefits:

- · Reduce administrative expenses, expedite procedures
- Free filing cabinet and office space
- Reduce the cost of records storage
- Eliminate duplication of effort within the City
- Find records faster
- · Easier purging of file folders
- Determine what media should be used to store records

For questions, please contact the Deputy City Clerk.

#### **AUTHORIZATION TO DESTROY RECORDS:**

Destruction of an <u>original</u> record that has exceeded its retention period must be <u>authorized</u> according to City Policies & Procedures <u>prior</u> to destroying it.

• If there is a **minimum** retention ("**Minimum 2 years**"), <u>destruction of the document must be authorized before it is destroyed</u>, as it is an original record.

Copies, drafts, notes and non-records do NOT require authorization, and can be destroyed "When No Longer Required."

• If there is **NOT** a minimum retention ("When No Longer Required"), it does <u>NOT</u> need to be authorized prior to destruction, as it is a preliminary draft / transitory record or a copy.

On every page of the schedules (near the top, just under the column headings) are important instructions, including instructions regarding holds on destroying records. "Litigation, complaints, claims, public records act requests, audits and/or investigations suspend normal retention periods (retention resumes after settlement or completion)."

**OFR (Office of Record):** The department that keeps the original or "record copy." Usually it is the department that originates the record, unless the item is for a City Council meeting (then it is the City Clerk.)

**Records Description:** The record series (a group of like records).

**Transitory Records** not retained in the ordinary course of business, that do NOT have substantive content: Preliminary drafts, notes, or interagency or intraagency memoranda and records having only transitory value. Examples: Telephone messages, meeting room reservation schedules, logs, source records entered into a computer system that qualifies as a "trusted system", etc.

**Non-Record:** Those documents not retained in the ordinary course of business and include documents, studies, books and pamphlets produced by outside agencies and preliminary drafts.

**Retention/Disposition:** Active: How long the file remains in the immediate office area (*guideline*)

Inactive: How long the file is in off-site storage, stored on Optical Disk or Microforms (guideline)

**Total Retention**: The total number of years the record will be retained

For file folders containing documents with different retention timeframes, use the document with the longest retention time.

P = Permanent

Indefinite = No fixed or specified retention period; used for databases, because the data fields are interrelated.

**Vital?** = Those records that are needed for basic operations in the event of a disaster.

**Media Options** (*guideline*) – the form of the record: Mag = Computer Magnetic Media (hard drive, disks, tapes, USB Drives, thumb drives, etc.)

Mfr = Microforms (aperture cards, microfilm, microfiche, or jackets)

Ppr = Paper

OD = Optical Disk, CD-r, DVD-r, WORM, or other media which does not allow changes

**Scan / Import** (*guideline*): "S" indicates the record should be scanned into the document imaging system;

"I" indicates the record should be electronically imported into the document imaging system;

"M" indicates the record should be microfilmed

**Destroy Paper after Imaged & QC'd:** "Yes" indicates the electronic record may serve as the OFFICIAL record (and the paper version may be destroyed) **IF** the document has been imaged (electronically generated, scanned or imported **and** placed on **Unalterable Media – DVD-R, CD-R, or WORM, or microfilmed**), and both the images and indexing Quality Checked ("QC'd"). The electronic record or image must contain all significant details from the original and be an adequate substitute for the original document for all purposes, and other legal mandates apply. Includes all electronic records which are to serve as the Official Record.

Retentions apply to the department that is NOT the Office of Record (OFR), or the "Lead Department". If you are the OFR, refer to your department retention schedule.

Retentions begin when the act is completed, and imply a full file folder (e.g. last document + 2 years), since destruction is normally performed by file folder.

Litigation, claims, complaints, audits, public records act requests, and/or investigations suspend normal retention periods (retention resumes after settlement or completion).

If the record is not listed here, refer to the Retention for City-Wide Standards

Retentions begin when the act is completed, and imply a full file folder (e.g. last document + 2 years), since destruction is normally performed by file folder.

Litigation, complaints, claims, public records act requests, audits and/or investigations suspend normal retention periods (retention resumes after settlement or completion).

If the record is not listed here, refer to the Retention for City-Wide Standards

Retentions begin when the act is completed, and imply a full file folder (e.g. last document + 2 years), since destruction is normally performed by file folder.

Litigation, complaints, claims, public records act requests, audits and/or investigations suspend normal retention periods (retention resumes after settlement or completion).
