**COMPLIANCE STATEMENTS**

Policy Area: Strategic Planning/ Special Projects, Policy Item Development Projects (H): Housing Element Update (State HCD Compliance) is an adopted policy item under the FY 2018-2021 City Council Priority Workplan, effective November 1, 2017.

**CEQA Compliance Statement**

California Department of Housing and Community Development (HCD) reporting requirements do not constitute a "project" within the meaning of the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes in the environment.

**BACKGROUND**

California Government Code Section 65400 requires general law cities to prepare and submit an Annual Progress Report (APR) to HCD, and the Governor's Office of Planning and Research (OPR) describing the status of implementing the General Plan Housing Element. The APR includes information on the City's progress in addressing the Regional Housing Need Allocation (RHNA) and the status of housing policies/programs listed in the 2015-2023 City of San Pablo Housing Element. HCD provides forms and instructions for preparation of the APR. The APR provides a snapshot of housing unit production across affordability levels, and provides an update on housing program implementation. The APR must be considered by the Council at a public meeting, during which the City should receive any public comments. Once accepted by the Council, the APR is sent to HCD and OPR.

The City initiated a comprehensive update of the Housing Element in 2014 as part of the 8-year review and update cycle established by the Association of Bay Area Governments. The 2015-2023 City of San Pablo Housing Element was adopted on April 6, 2015, and certified by HCD on May 26, 2015.

The 2018 APR (Attachment A) provides the number of housing units for which the City issued

building permits, both in the aggregate and by affordability levels according to State-defined income levels, during calendar year 2018. The APR also identifies progress made on implementation programs included in the City's Housing Element. It should be noted that timelines assigned to the various implementation programs are estimates only, subject to resource availability and Council Priority Workplan conformance. The City issued building permits for one secondary unit, which is in the low income category, one mobile home, which is also considered in the low income category, and two new single family homes, which are in the moderate income category, in 2018.
